

Job Title: Water Operator Class II

Job Summary: Perform a wide variety of skilled technical duties to operate, maintain and repair the water treatment facilities and systems, perform routine analysis and keep operational records.

This position is located in the Water Department, Corporation of Harpers Ferry, West Virginia. A current Class II Certification is required. The position is part-time for 10-30 hours per week, and the scheduling will require flexibility. Work can be physically demanding requiring sufficient strength and stamina to operate a variety of hand tools, trenching tools and wrenches. Physical exertion is required when digging trenches, repairing water lines, replacing valves, hydrants, and other similar tasks.

Please send resume and cover letter indicating credentials and availability to:
ncummins@harpersferrywv.us.
